INTELLIGENCE REPORT

COUNTRY Germany/Russian Zone

DATE: 25X1A6a

SUBJECT Interzonal Trade of the Province of Saxony

INFO. [REDACTED]

DIST. 24 January 1947

25X1A6a

PAGES 2

ORIGIN [REDACTED]

SUPPLEMENT

25X1X6

1. Planned interzonal trade with the Province of Saxony:

a) Deliveries from the western zones:

No. of orders placed	Total value	Date
3,528	RM 38,252,195	15 October 1946
-	RM 32,141,000	15 August 1946

b) Deliveries to the western zones:

No. of orders placed	Total value	Date
1,131	RM 11,621,000	15 October 1946
-	RM 11,621,000	15 August 1946

Comment: Figures listed under "No. of orders placed" presumably represent cumulative totals.

2. Actual interzonal trade with the Province of Saxony:

a) Deliveries from the western zones:

Total value	Date
RM 4,815,200	15 October 1946
RM 1,900,000	15 August 1946

CENTRAL INTELLIGENCE GROUP

- 2 -

c) Deliveries to the western zones:

Total value	Date
RM 3,267,171 **	15 October 1946
RM 1,800,000	15 August 1946

* This figure includes RM 748,000 worth of automobile tires, which the SMA is distributing itself.

** This figure includes RM 2,367,000 of buna delivered to the American Zone.

3. By special agreement (aus besonderem Abkommen) 26,238.7 tons of iron and steel were imported into the Province of Saxony in the second and third quarters of 1946. No deliveries are expected during the fourth quarter.

- F-4 4. By special agreement the Province of Saxony is to deliver to the British Zone

40,000 tons of grain (previous deliveries: 2,500 tons),
 30,000 tons of potatoes,
 5,000 tons of sugar,
 200,000 cubic meters of mining timber,
 36,000 tons of iron ore.

In return for the above goods the British Zone is supposed to deliver

16,000 automobile tires,
 5,000 horses,
 20,000 young pigs.

Distribution of these goods from the British Zone will be arranged by the Central Administration in Berlin.

5. The official report from which all the above figures are derived contains the following comments:
- a) Because the influence of the Province on the Soviet plants is continually diminishing, it is becoming increasingly difficult to fulfil agreements which have already been drawn up.
 - b) The western zones are beginning to keep stricter accounts of the goods they deliver and to correlate their actual receipts with their deliveries.
 - c) Whether the Soviet plants will deliver products for use in the exchange of goods is not yet clarified. If not, that would mean a considerable limitation.
